Options

l expect to start drawing income from this investment:

□ Not for at least 20 years

□ Immediately

□ Not now. but within 5 years

REIT's

□ In 10 to 20 years □ In 5 to 10 years

Bonds

For this investment, my goal is:

□ To grow aggressively

- □ To grow with caution
- □ To avoid losing money

Assuming normal market conditions, what would you expect from this investment over time?

- □ To generally keep pace with the stock market
- □ To trail the stock market, but make a decent profit
- □ To have a high degree of stability, but only modest profits

Suppose the stock market performs unusually poorly over the next decade. Then what would you expect from this investment?

- □ I will be OK if I lose money
- □ To make a small gain
- □ To be little affected by what happens in the stock market

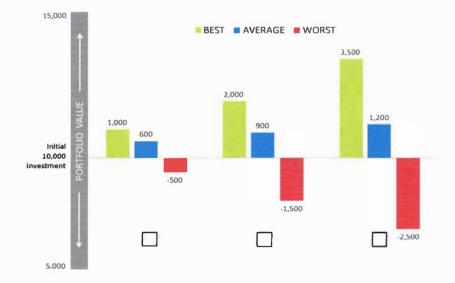

Which of these statements would best describe your attitude about the next three years' performance of this investment?

- □ I'll be OK if I lose money
- □ I want to at least break even
- I need at least a small profit

Which of these statements would best describe your attitude about the next three months' performance of this investment?

- □ Who cares? One calendar quarter means absolutely nothing
- □ If I suffered a loss of greater than 10% I'd get concerned
- □ I can tolerate only small short-term losses

The following graph shows the possible outcomes (best, average and worst case scenario) of 10,000 invested in three different hypothetical portfolios over one year. Select the portfolio that best matches how you would have invested the money.

RISK PROFILE:
